

Our Mission

To offer assessment and evaluation services at all levels of education, and conduct research on the determinants the quality of education, in order to provide the necessary information for its improvement.

Our Vision

By 2013, we will be recognized as experts in evaluation and as a valid source of indispensable information and knowledge for the formulation and design of improvement plans and public policy on quality of education and development of human capital.

Quality Policy

We work to provide trustworthy, timely and useful information gathered from assessments and studies on education quality. Our priorities are to fulfill the expectations and satisfy the needs of our clients, which leads us to be fully committed with the constant improvement of our institution.
